

# Economic Growth Region 10

Statistical Data Report for September 2016, Released November 2016

## Regional and State Unemployment (seasonally adjusted)

Unemployment rates were significantly lower in September in seven states, higher in one state, and stable in 42 states and the District of Columbia, the U.S. Bureau of Labor Statistics reported. Six states had notable jobless rate decreases from a year earlier, four states had increases, and 40 states and the District had no significant change. The national unemployment rate was 5.0 percent in September, little changed from that of both August 2016 and September 2015.

New Hampshire and South Dakota had the lowest jobless rates in September, 2.9 percent each. Alaska had the highest unemployment rate, 6.9 percent. In total, 20 states had unemployment rates significantly lower than the U.S. figure of 5.0 percent, nine states and the District of Columbia had higher rates, and 21 states had rates that were not appreciably different from that of the nation.

## Economic Growth Region (EGR) 10

Clark, Crawford, Floyd, Harrison, Scott, and Washington Counties.

## Celebrating National Disability Employment Awareness Month

The Economics Daily, The Bureau of Labor Statistics October, 2016

October is National Disability Employment Awareness Month, which seeks to celebrate the many work contributions of Americans with disabilities and to educate the public on the employment difficulties they often face.

In 2015, there were about 5.2 million people with disabilities employed in the United States. While the largest share of employed people with disabilities worked in management, professional, and related occupations (31.3 percent), this was smaller than the share of people with no disabilities employed in these same occupations (39.2 percent). Employed people with disabilities were more heavily concentrated in service occupations and in production, transportation, and material moving occupations than their counterparts with no disabilities.

**Percentage distribution of employed people by occupation, disability status, and sex, 2015 averages**

Click legend items to change data display. Hover over chart to view data.  
Source: U.S. Bureau of Labor Statistics.

### Highlights from the 2015 data:

- People with disabilities were about 3 times more likely than those without a disability to be age 65 and over.
- For all age groups, the employment—population ratio was much lower for people with a disability than for those without a disability.
- Unemployment rates were higher for people with a disability than for those without a disability among all educational attainment groups.
- 32 percent of workers with a disability were employed part time, compared with 18 percent of workers without a disability.
- Workers with a disability were more likely to be self-employed than those with no disability.
