### Mapping the Local Area Unemployment Statistics (LAUS)

#### **Year-to-Year Change**

Current month compared to sa	ame month one year ago
------------------------------	------------------------

Employment Change by County	1
Employment Percent Change by County	2
Employment Change by Economic Growth Region	3
Unemployment Rate Change	4

#### **About LAUS**

The Local Area Unemployment Statistics (LAUS) program is a federal-state cooperative effort that produces monthly estimates of employment and unemployment. The estimates are based on the resident, civilian labor force in Indiana, which excludes people in institutions and in the armed forces. The most recent month of data displayed in these maps is preliminary data.

The U.S. Bureau of Labor Statistics (BLS) of the U.S. Department of Labor is responsible for the concepts, definitions, technical procedures, validation, and publication of the estimates that state employment security agencies prepare under agreement with BLS. For more information, visit www.bls.gov/lau/laufaq.htm.
