Employment Percent Change by County	2
Employment Change by Economic Growth Region	3
Unemployment Rate Change	4

Multi-Year Change

Current month compared to same month in 2009

Employment Change by Economic Growth Region	5
Unemployment Rate Change	6

About LAUS

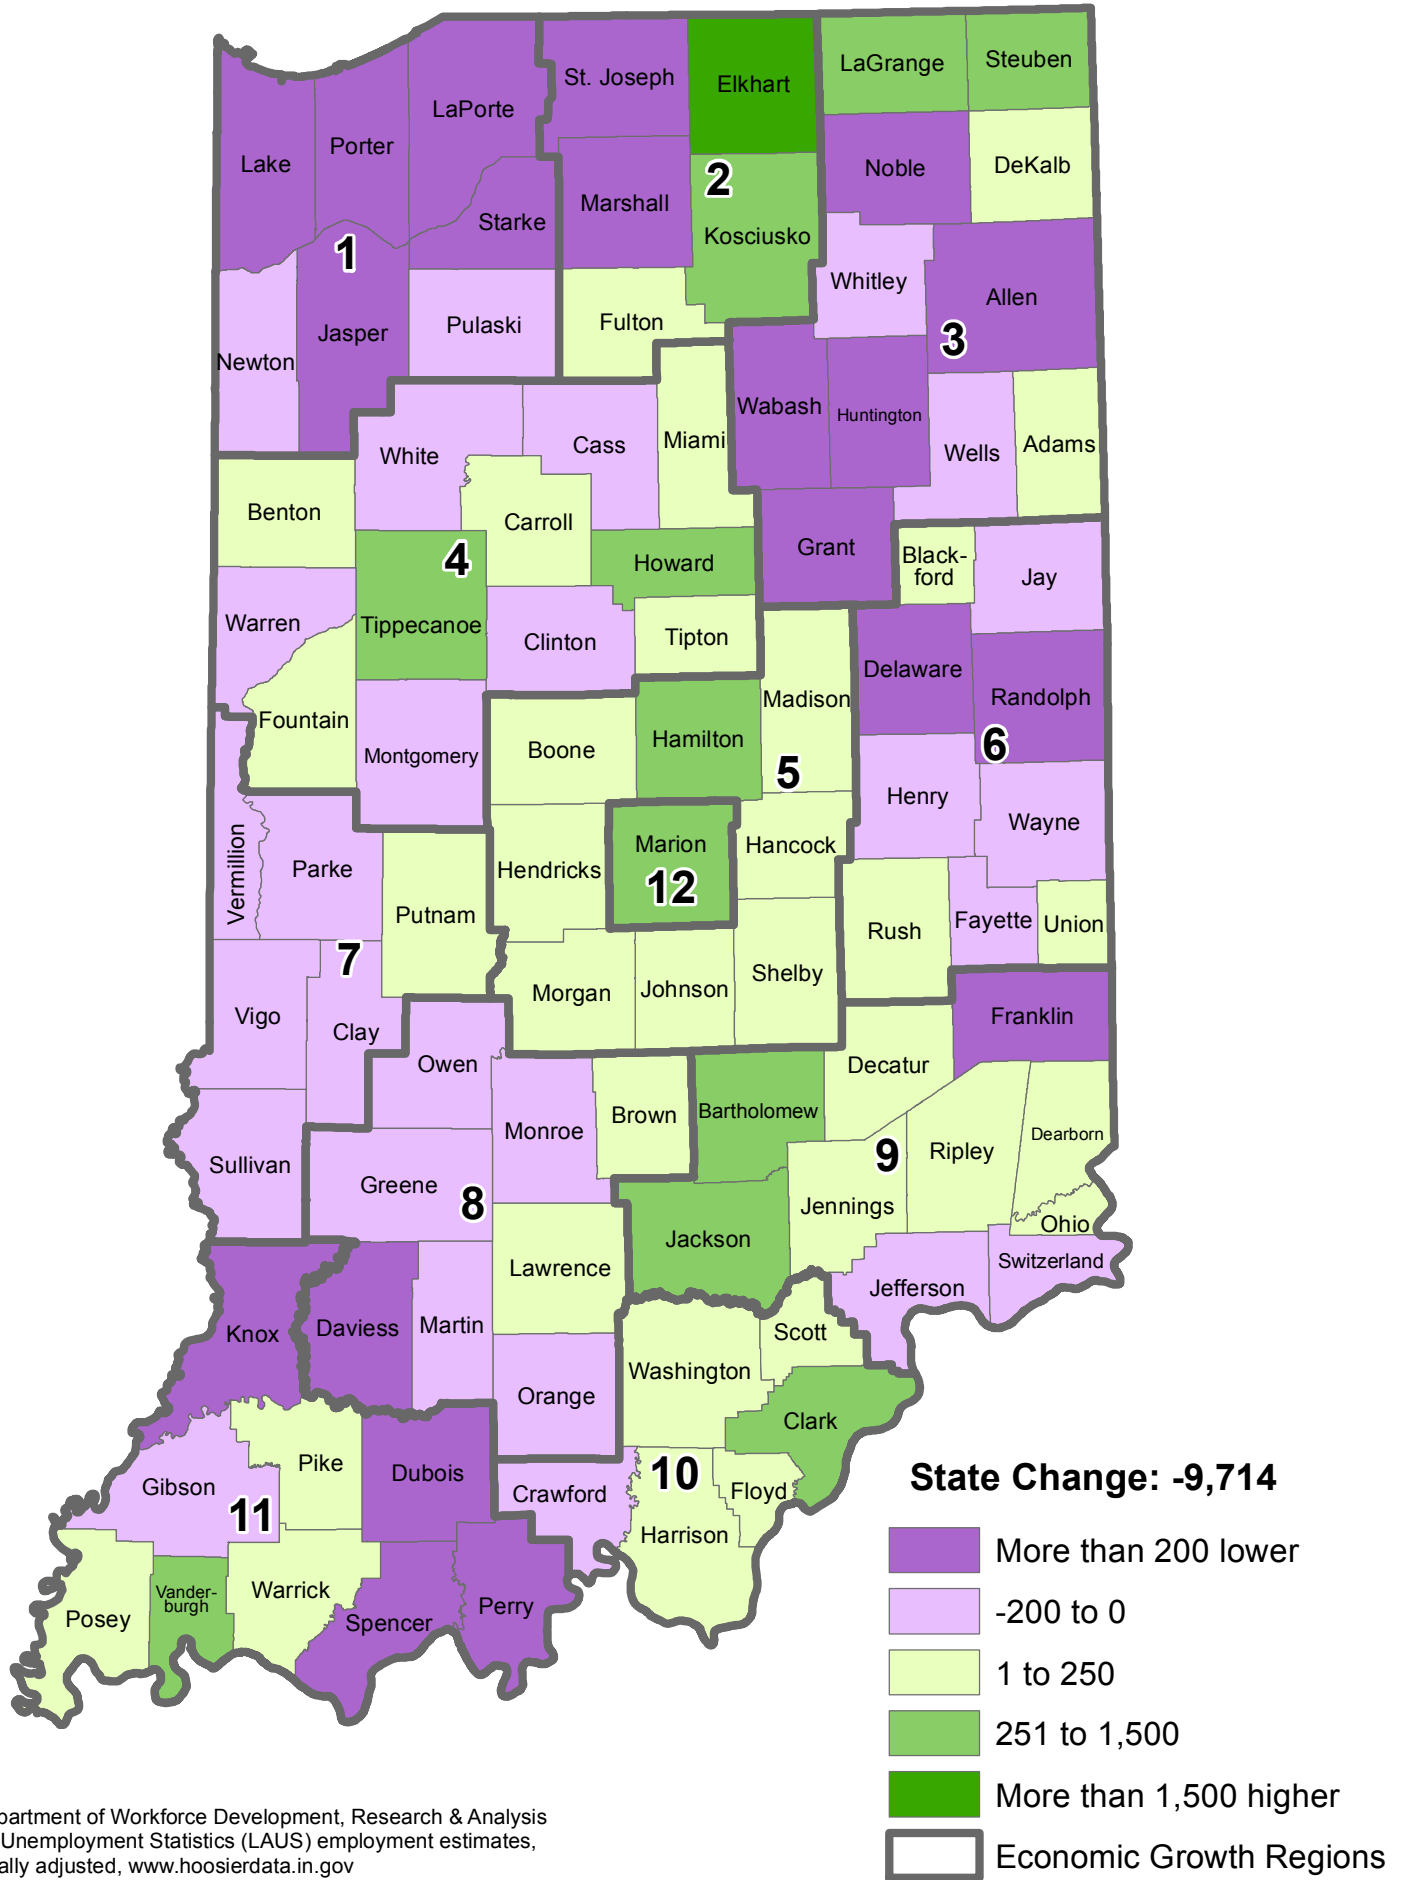

The Local Area Unemployment Statistics (LAUS) program is a federal-state cooperative effort that produces monthly estimates of employment and unemployment. The estimates are based on the resident, civilian labor force in Indiana, which excludes people in institutions and in the armed forces. The most recent month of data displayed in these maps is preliminary data.

The U.S. Bureau of Labor Statistics (BLS) of the U.S. Department of Labor is responsible for the concepts, definitions, technical procedures, validation, and publication of the estimates that state employment security agencies prepare under agreement with BLS. For more information, visit www.bls.gov/lau/laufaq.htm.
